

Guess how much you would get if you invest Just Rs.100/- p.m. for 30 years @ 20% p.a.

Ans: Your investment would be worth mind blowing **Rs.23.00 Lakhs**

Do you want to accumulate such wealth for yourself?

*Each Drop of Water is essential to make a Mighty Ocean.
Every Rupee Saved is a Rupee Earned to Secure the Future.*

We as individuals, in our busy schedules, forget that we are getting older day by day and there would be a day when we would retire! In the routine life, a person spends all his time budgeting his present expenses to fulfil his/her family's day to day needs and in the process forgets the long term goals.

There would be a day when we will have to stop working due to old age, other unforeseen events, but would definitely require lot of money to survive and more over be Self Dependent.

The Only Mantra is to start Saving and Investing early to Secure your Future.

The table below shows what wealth you can create in the long run by investing a small portion of your income every month.

Duration in Years	Compounded Annual Returns on Rs.100/- Invested p.m.			
	12% p.a.	15% p.a.	18% p.a.	20% p.a.
10 Yrs	23004/-	27522/-	33129/-	37609/-
15 Yrs	49958/-	66851/-	90562/-	111570/-
20 Yrs	98925/-	149724/-	230885/-	310965/-
25 Yrs	187885/-	324353/-	573725/-	848529/-
30 Yrs	349496/-	692328/-	1411358/-	2297784/-

*Value of Wealth may vary based on returns, duration, continuity, risk.

The table shows returns on Rs.100/- invested every month, Imagine the value we would accumulate if we invest higher amounts say Rs.1000/- , Rs.2000/- etc.,
